

Matador Surface Mount Sliding Bollard

Matador Surface Mount Sliding Bollard is ideal for installations where excavation is impractical. Low profile and safe operation make it perfect for areas where constant pedestrian access is required.

The Matador Surface Mount Sliding Bollard include the following features:

- Requires minimal excavation and disruption to road surface
- Engineered for Safety without Pinch Points, Trap Hazards, and Voids
- High Duty Cycle
- Engineer Rated to K4
- Visible to Drivers and Pedestrians at All Times
- 5” High Surface Mount or 5” Excavation.
- Level or Ramped to Slow Traffic
- Easy to Clean and Maintain
- Three and Four Bollard Units
- Sleek, stylish design – available with range of covers/styles/finishes to blend with any environment
- Can be supplied with EFO for emergency operation
- Can be operated by any access control and manually via a hand pump
