

Modular Vehicle Barrier (MVB)

Modular Vehicle Barrier (MVB) is a portable temporary vehicle mitigation solution for events of all types. The lightweight design makes it easily transportable and quick to deploy to keep your guests safe.

Features of the Modular Vehicle Barrier include:

- Portable Passive Barrier
- Lightweight design for easy placement
- Set in place with no mounting or bolting to surface
- Available in 5 foot (450#), 10 foot (800#) and 20 foot (1350#) lengths
- ASTM F2656-07 M30 P2 (K4) certified at 20' lengths
- Can accommodate curbs and medians
- Optional archway for easy access for pedestrians while maintaining barrier integrity
- Can be used in conjunction with portable active barriers to provide full 360 degree protection from vehicles
- Easily customized to blend into surroundings
